

AFFILIATE COMMISSION PROGRAM

How to become a United Games Affiliate

Affiliates with United Games are people independently contracted to help share apps, and are compensated according to the program explained here. Anyone, 18 or older, can participate in the United Games Affiliate Commission Program by simply creating a United Games Affiliate Account.

A one-time business suite cost of **\$29.99** is required to join the Affiliate program. Beginning September 15, 2016 this cost will increase to **\$39.99**. In addition, the monthly technology subscription is required to keep your Affiliate account active (current cost \$9.99). Affiliates are permitted to refer other Affiliates and are financially rewarded when those they referred generate player revenue in the app.

If at any time you no longer wish to participate as an Affiliate, you may cancel your Affiliate membership by contacting us at: www.unitedgames.com/support. Please note that once an Affiliate account has been cancelled, you may not create a new account for six months.

Important Terms to Understand

The App: The mobile application marketed by United Games is a sports app that allows players to play along live with their favorite teams, favorite sports, and favorite friends. Affiliates are paid when people they share this app with acquire and/or play tokens.

Tokens: Tokens are the virtual game currency, allowing players to play certain aspects of the app. These tokens are acquired by in-app purchases, bundle purchasing, member subscriptions, or by participating in sponsored advertisements.

Tier: A generation of organization in your Affiliate team, based on the referral of players and of enrolled Affiliates. A personally referred Affiliate would automatically be placed Tier 1. If a Tier 1 Affiliate personally refers another Affiliate, that person would naturally be your Tier 2. You may, however, place personally referred Affiliates into different Tiers. Inactive Affiliates are not counted as a Tier. Players are counted in the Tiers based upon who referred them. There are no limits to the number of players or Affiliates per Tier.

Zone: A level of earning qualification. Each zone is unlocked by monthly qualifications, allowing that Affiliate to earn a percentage of volume from additional Tiers (according to the charts in this document).

Volume: Cumulative amount of acquired or played tokens. Earning percentages are calculated using these volumes, according to the explanation in this document.

Line: The total volume of your personally sponsored Affiliate's organization. (If you sponsor 5 Affiliates, you would have 5 lines).

3 Ways to earn as a United Games Affiliate

1 Commissions for Tokens ACQUIRED

Get paid when you introduce the app and tokens are acquired!

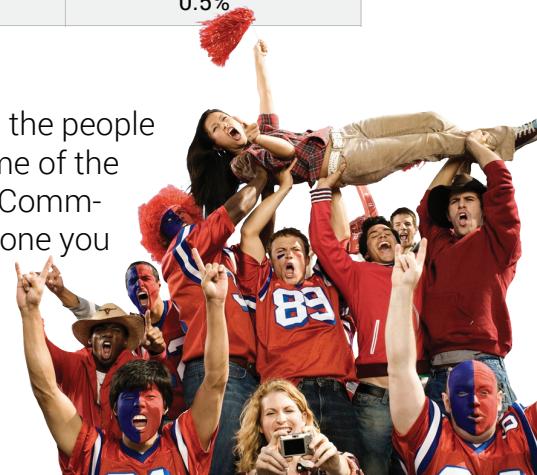

Every Affiliate has the ability to share the United Games app with others, inviting them to download the app and join in the fun. When they download the app from your invitation, that player will forever be linked to that Affiliate. Each time any player that is linked to you acquires a token, you earn a commission.

Tokens can be acquired through in-app purchases, discounted bulk purchases, or through monthly membership. Tokens may also be acquired by participating in offers from in-game advertisers.

The commission percentage is paid based on which Tier the volume is assigned to. The tiered percentage on tokens acquired is shown in the following chart.

Commissions for TOKENS ACQUIRED				
	Zone 1	Zone 2	Zone 3	Zone 4
Tier 1	10%	10%	10%	10%
Tier 2	5%	5%	5%	5%
Tier 3		3%	3%	3%
Tier 4		2%	2%	2%
Tier 5			1%	1%
Tier 6			1%	1%
Tier 7				1%
Tier 8				0.5%
Tier 9				0.5%

This means that you not only can get paid on the token volume from the people who you share the app with, but you also get paid on the token volume of the people they share with as well, as long as you are qualified to do so. Commissions can be earned up to nine (9) Tiers down, based upon which zone you have unlocked in the commission plan during that commission month.

2 Commissions for Tokens PLAYED

Get paid when you invite others to play in individual games!

When a game is organized, a temporary tiered organization is formed according to who invited who to play in that game. When you join that game, and you invite someone to play in that game with you, as an Affiliate you will earn a commission on the tokens spent by your invited players during that game.

This commission is also multi-tiered, which means that you not only get paid on the tokens spent from the people who you invite, but you also get paid on the token played by the people they invite as well, up to four (4) Tiers down, based upon the zone you have unlocked that month.

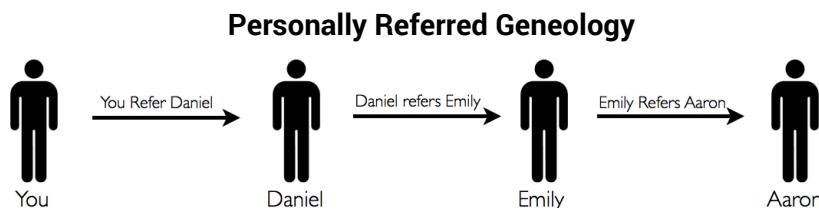

Players (who are not Affiliates) who invite other players do not earn commissions for those they invited. Therefore, those commission that would have been earned are paid to the Affiliate who is linked to those players.

Commissions for TOKENS PLAYED				
	Zone 1	Zone 2	Zone 3	Zone 4
Tier 1	5%	5%	5%	5%
Tier 2		2%	2%	2%
Tier 3			2%	2%
Tier 4				1%

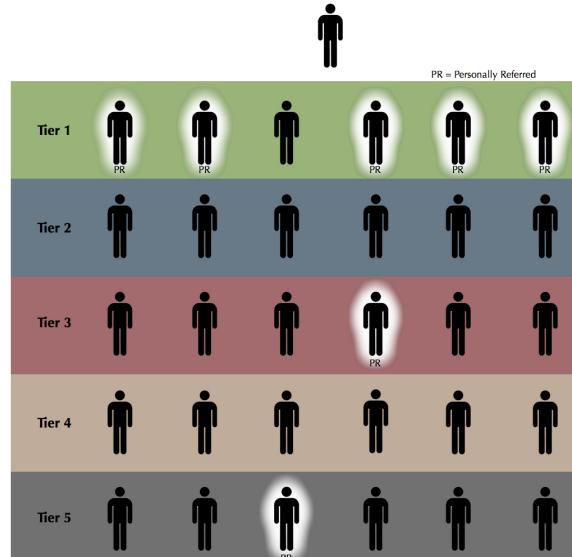

3 Check Matching Commission

Affiliates are financially rewarded for sharing the App and inviting people to play the games. For those who choose to do so, we also want to reward Affiliates for encouraging these same behaviors in other Affiliates. You will be rewarded with a bonus which matches a percentage of the commission that your active, personally referred Affiliates earn for both their Tokens Acquired Commissions and their Tokens Played Commissions. The check matching commission is calculated a bit different from the other commissions. It is based on your personally referred Affiliates... and the Affiliates they have personally referred... and so on. This can be referred to as your Affiliate genealogy.

This commission is not based on placement in the tiered organization like the other commissions, it is calculated on personally referred geneology. This is important to know, because some people choose to place a personally referred Affiliate somewhere other than on their 1st Tier. This means that you may have personally referred Affiliates on many different Tiers in your organization. When the Check Match Commission is calculated, the people you check match has everything to do with your genealogy. The percentage of that check match is as follows:

CHECK MATCHING COMMISSION				
	Zone 1	Zone 2	Zone 3	Zone 4
Tier 1	20%	20%	20%	20%
Tier 2		10%	10%	10%
Tier 3			5%	5%
Tier 4				5%

Affiliate Status and Recognition

Affiliate status and recognition level does not affect commission earnings. It is simply a way to congratulate Affiliates for their accomplishments. United Games will use these recognition levels for various reasons including public recognition, event participation, and other promotions. Your status can be determined based on volume of tokens played, or a combination of both according to accompanying charts.

Unlocking the Commission Zones

The United Games Commission Plan is structured into 4 zones. Each zone has additional layers of commission payout possible (see the charts in each section for details). The zones are unlocked according to the following monthly qualifications:

Unlock Zone 1: Be an active Affiliate. This means you've paid your one-time Affiliate business suite cost and you have an active monthly technology subscription in the commission month.

Unlock Zone 2: Be an active Affiliate that meets the following additional qualifications of:

- 5 Personally Referred Active Affiliates
- 25,000 in total team token volume
- No more than 50% of total token volume can come from 1 personally referred Affiliate line

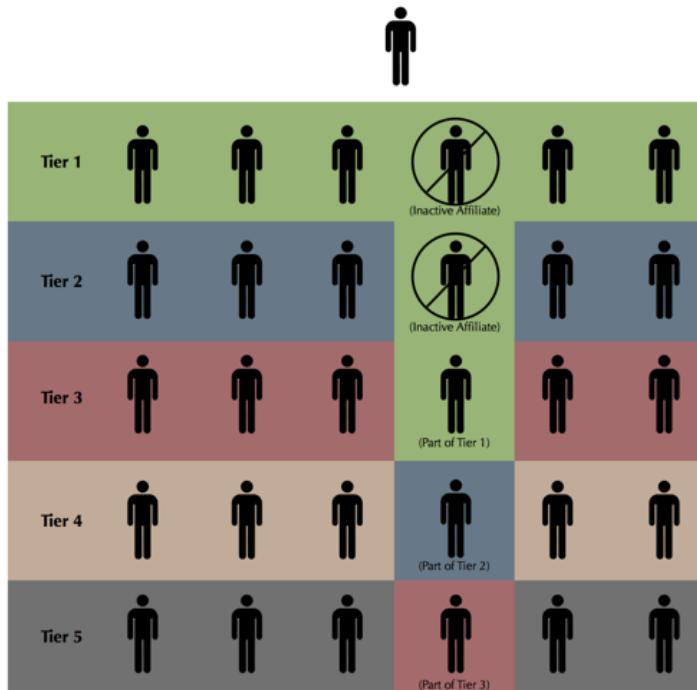

Unlock Zone 3: TBA

Unlock Zone 4: TBA

Affiliate Recognition Level Qualifications

Level	Purchased Token Volume	Spent Token Volume	Combined Token Volume
Amateur	---	---	---
Semi-Pro	2,000	2,000	3,000
Professional	5,000	5,000	7,500
Asst. Coach	10,000	10,000	15,000
Head Coach	25,000	25,000	37,500
Manager	TBA	TBA	TBA
General Manager	TBA	TBA	TBA
Owner	TBA	TBA	TBA
Commissioner	TBA	TBA	TBA

Example of a Tiered Organization

Inactive Affiliates do not count as a Tier, they compress

GLOSSARY

The App: The mobile application marketed by United Games is a sports app that allows players to play along live with their favorite teams, favorite sports, and favorite friends. Affiliates are paid when people they share this app with acquire and/or play tokens.

Active Affiliate: An Affiliate in good standing must have registered as an Affiliate and be an active United Games Affiliate with an active monthly technology subscription. (current \$9.99)

Affiliate: An independent contractor who has signed and completed the official United Games Affiliate Agreement and whose Affiliate Agreement has been accepted by United Games and whose relationship is not otherwise terminated. Players are not Affiliates.

Affiliate Status: Recognition titles in the United Games Affiliate Commission Program. There are nine different status titles that can be achieved in the program. Each different status reflects the size and scope of an individual Affiliate's business. (see the accompanying status and recognition)

Commission: Earnings that are based on a percentage of the total volume of tokens acquired or played in your organization according to the specifications outlined in the commission plan.

Game: A group of people who come together to play along with the specific live sporting event.

Line: The total volume of your personally sponsored Affiliate's organization. (If you sponsor 5 Affiliates, you would have 5 lines).

Organization Volume: The total volume of an Affiliate and his/her team from each personally sponsored Affiliate line.

Player: A person who uses the app, but is not an Affiliate.

Tier: A generation of organization in your Affiliate team, based on the referral of players and of enrolled Affiliates. A personally referred Affiliate would automatically be placed Tier 1. If a Tier 1 Affiliate personally refers another Affiliate, that person would naturally be your Tier 2. You may, however, place personally referred Affiliates into different Tiers. Inactive Affiliates are not counted as a Tier. Players are counted in the Tiers based upon who referred them. There are no limits to the number of players or Affiliates per Tier.

Tokens: Tokens are the virtual game currency, allowing players to play certain aspects of the app. These tokens are acquired by in-app purchases, bundle purchasing, member subscriptions, or by participating in sponsored advertisements.

Token Acquired: A token is acquired in order to play games. The tokens acquired are used to calculate Affiliate commissions in the commission plan. Tokens can be acquired through either membership purchases, in-app purchases, or by earning them from viewing sponsored advertisements.

Token Played: A token that is played during a game. It allows the player to participate in certain aspects of the game.

Volume: Cumulative amount of acquired or played tokens. Earning percentages are calculated using these volumes, according to the explanation in this document.

Zone: Commission payments are unlocked according to zones. Zone one is immediately available to all active Affiliates in good standing. The subsequent zones are unlocked according to certain qualifications shown above.
